

ISO 9000:2000 Series Auditor / Lead Auditor

Course Description

The caliber of your lead auditor is crucial to the performance of your audit team, and ultimately to success of your management system. This comprehensive five-day course provides hands-on training to ensure that your lead auditor thoroughly understands the role and acquires the expertise he/she needs to perform it effectively. Delegates completing the course will be presented with IRCA / IATCA's independently accredited certificate for lead auditors.

Who should attend?

Quality professionals with experience in implementation and auditing of quality management systems.

Benefits to your Business?

The knowledge that your management systems are being effectively audited.
The ability to do third party audits of your supply chain
